

WH Energy-Saving Rebate Program

2024 Rebate Application

ZEF Energy Charging Station

Your electric vehicle's (EV) ZEF Energy charging station must be on a Wright-Hennepin (WH) Energy-Saving Program (ESP) in order to qualify for this rebate. The vehicle must be a battery electric vehicle (BEV), not a plug-in hybrid (PHEV).

This rebate is available only for the purchase of a new ZEF Energy 240-volt Level 2 wall mount charging station, with a minimum of 4.5 kW charger rating, which must be on a WH ESP. The EV is required to be all-electric with a minimum of 4.5 kW charger rating to qualify for the rebate, and it must be installed where electricity is supplied by WH. Rebate submittal must follow the terms as outlined on this form.

Member Information:
